

**AMENDMENTS TO THE SPECIFICATION**

Please amend the specification, as follows:

Please insert the following paragraph, at page 5, between lines 23 and 24, please insert the following paragraph:

The present invention also relates to an oral formulation for gastrointestinal drug delivery which comprises an adhesion site-controlling layer for attaching the formulation to a selected site in the intestines, a drug-carrying layer containing a drug and an adhesive to attach the drug containing layer to the selected site in the intestines when the adhesion site-controlling layer dissolves at the selected site in the intestines, and a protecting layer for protecting the drug in the drug-carrying layer, the drug-carrying layer existing between the protecting layer and the adhesion site-controlling layer, the adhesion site-controlling layer may attach to the protecting layer and the adhesion site-controlling layer is a film made of an enteric polymer.
